

Become a **RESELLER** for our special effect paints

Our complete range of products is manufactured in our factory in France under the brand ARCO IRIS.

We are seeking for distributors all around the world, so if you want to become a reseller in your country, you are welcome!

Prices and Distribution

The main condition to become reseller is to own a shop or a web boutique. Depending on your profile and order volume, we may offer full territory exclusivity.

Discount

Depending on the quantities and types of product, we may offer 30 to 50% discount on all our catalogue. We may also offer up to 50% discount on all our dry concentrates. It is not necessary to buy a full stock. Small order can be made on demand.

Concentrates

For all overseas countries, we propose an exclusive solution to make the shipping easier and cheaper: Our complete catalogue is available under dry concentrate (very light, very economical, very easy to mix with transparent binder and thinner). That solution allows express air shipment. For instance, 1kg of concentrate can make 40L of ready mixed products.

Documents

TDS and MSDS available
